

CASE STUDY | HEALTHCARE

HARRIS HEALTH SYSTEM | URGENT CARE CT-MRI IMAGING CENTER

Houston, Texas

PROJECT DESCRIPTION

Located in the heart of the Texas Medical Center, Ben Taub Hospital has garnered respect both locally and worldwide as an outstanding acute care facility and an elite Level I trauma center. This 486 licensed-bed hospital houses a level one Trauma Center, which cares for more than 100,000 emergency patients each year and is known to save the lives of some of the most critically injured.

Harris Health System is a fully integrated health care system that cares for all residents of Harris County, Texas, the third most-populous county in the U.S. Harris Health focuses on the delivery of primary care, wellness and prevention services through its extensive network of 42 inpatient and outpatient facilities and continues to grow. During its nearly 50 years of service, Harris Health has worked steadfastly to improve the community's health and to train the next generation of health care professionals. Harris Health's medical staff consists of the residents and teaching faculty for Baylor College of Medicine and The University of Texas Health Science Center at Houston (UT Health).
